“For many people Henry Ford’s 1913 Detroit assembly line is a symbol of technological triumph. This book shows that Chicago’s 1865 disassembly line was an earlier more complete wonder. This is a stunning account of the growth, complexity, rewards, and costs of modernity.”

—Garry Wills, author of *Lincoln at Gettysburg*

Slaughterhouse tells the story of the Union Stock Yard, chronicling the rise and fall of an industrial district that, for better or worse, served as the public face of Chicago for decades. Dominic A. Pacyga is a guide like no other—he grew up in the shadow of the stockyards, spent summers in their hog house and cattle yards, and maintains a long-standing connection with the working-class neighborhoods around them. Pacyga takes readers through the packinghouses as only an insider can, covering the rough and toxic life inside the plants and their lasting effects on the world outside.
